PowerBusiness Reporting

Digital Dashboard

Visualising your business performance

- ? Do your managers and decision-makers routinely measure and monitor business performance?
- ? Do you have a way of visualising your business performance?
- ? How are you alerted to possible danger signs in time to take corrective action?

The PowerHealth Solutions Digital Dashboard is an out-of-the box solution for hospitals, with a library of health reports, easily extended to meet your organisation's specific needs.

Focused business insight

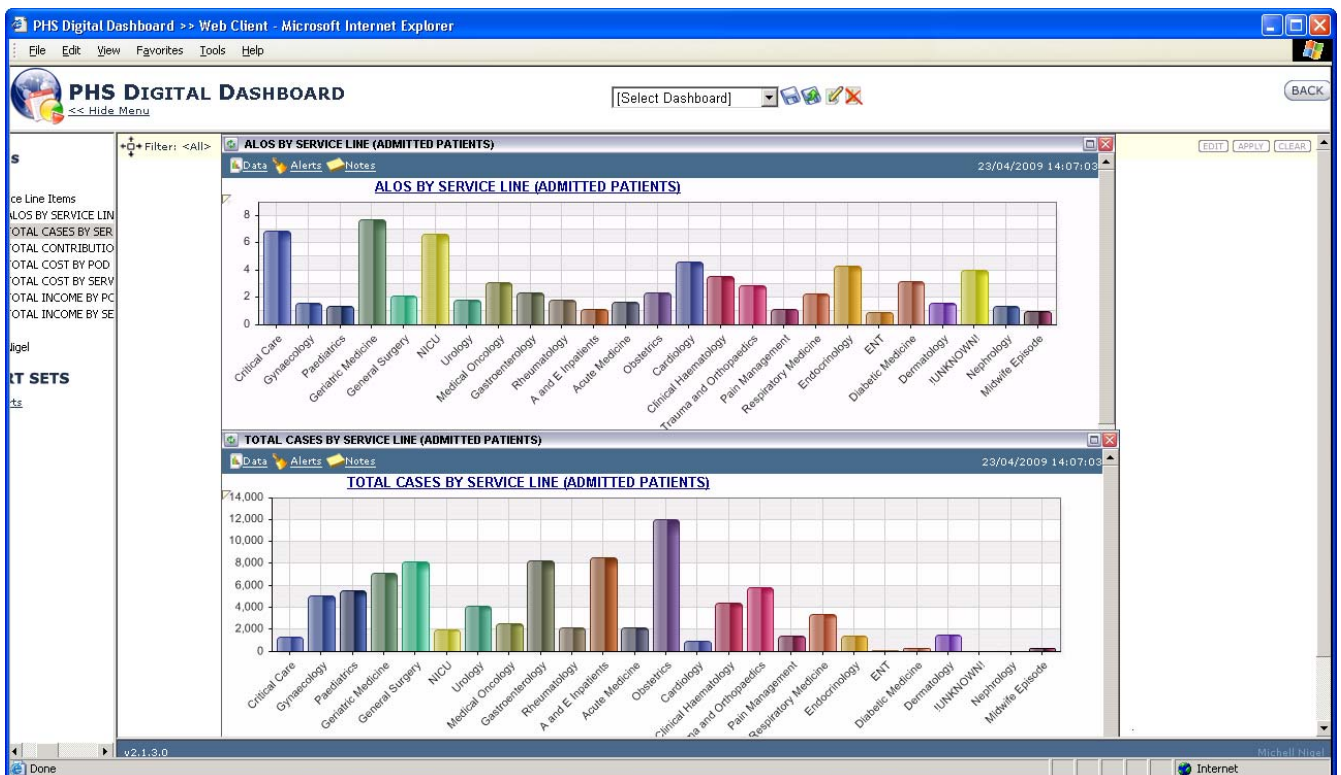

Get immediate and focused insight into precisely the information you need, with:

- ▶ Real-time data integration, temporal calculations
- ▶ Event correlation, rules capabilities
- ▶ Event-driven alerting.

Customisable

Digital Dashboard is fully customisable to suit your individual needs, with a simple and intuitive user interface:

- ▶ Create different dashboards to match alternative roles and responsibilities
- ▶ Display each KPI using digital graphics that best describes its information.
- ▶ Define your own KPIs using our intuitive web-based designer.
